

Instrumentation for the Measurement and Control of Industrial Processes

OUR PRODUCT OFFERING

ALLOY VALVES AND CONTROL

High performance ball valves, sanitary ball valves, check valves, gate valves, and globe valves.

The Original Machine Monitoring Experts

INDUSTRIAL SPEED MONITORING SYSTEMS

Wireless hazard monitoring system, speed switches, and sensors, vibration sensors motor controls.

PROCESS AIR AND SURFACE HEATERS

Axial fan heaters, duct heaters, flow and heat torch heaters, custom open coil heater, flexible heaters

MELT PRESSURE TRANSDUCERS

Stem and capillary style melt pressure transducers, melt temperature sensors, and rupture disks.

INFRARED AND THERMAL IMAGING

Non-contact infrared pyrometers, hand held and fixed thermal imaging cameras.

INDUCTION HEATING SOLUTIONS

Power supplies, work heads and custom coils for brazing, heat staking, shrink fitting, soldering applications and many more.

RECORDERS AND CONTROLLERS

Single and multiloop touch screen controllers, high limits, chart and multichannel video recorders, and IO modules.

INDUSTRIAL IMMERSION HEATERS

Over-The-Side Heater, L-Shaped Heater, Fluoropolymer Heater

THERMOCOUPLES/RTD ASSEMBLIES, THERMOWELLS, AND TRANSMITTERS

Single and dual element sensors, 3A sanitary assemblies, transmitters, thermowells, and bi-metal thermometers.

INDUSTRIAL HEATING ELEMENTS

Cartridge heaters, mica, MI and ceramic band heaters, mica, ceramic and finned strip heaters.

44050 Russia Road

Elyria, Ohio 44035

OUR PRODUCT OFFERING

INNOVATIVE FLOW AND PRESSURE SOLUTIONS

Mass flow meters, mass flow controllers, and pressure controllers.

LAB TEST Page 1 / 2

PH, conductive, ORP meters and test equipment.

HEAVY/LIGHT DUTY SOLENOID VALVES

Rugged dependable solenoid valves for liquid, gas and steam, bronze cast and stainless steel.

SOLENOID VALVES AND MAGNETIC
